

Can you AUDIATE?

Cut out the pictures below and line them up so that they tell the story of the *Chubby Little Snowman*. Say the chant. Turn one of the pictures face down and begin to say the chant again. When you get to the face down picture, audiate (say it in your mind) that part of the chant. When you are finished audiating, continue to the next picture and say the chant out loud. Turn a second picture face down and start again. Now, you will audiate two parts of the chant. Continue in this manner until you can audiate the entire chant. Don't forget to add the motions!
